AN UNEXPURGATED EDITION of the speech made by Representative Fordney of Michigan against the Cuban reciprocity bill would make mighty interesting reading. Mr. Fordney's remarks were so warm in spots that the Associated Press, which uses wires that are not insulated, was compelled to eliminate some of them for fear of causing a series of conflagrations.

Colon, Nov. 17 .- The government condemned men to show themselves guiltless, it would seem impossible that either is an innocent man, so that the executions set for today may properly be looked upon as a vindication of justice and the right enforcement of laws designed to protect human life.

In Utah especially there has been a growing sentiment that the criminal of the Uncle Sam stakes.

And now Cauca and Antioquoia want to join the fifteen-minute republic of Panama. Of course, They want to divide the money. They are trying to break into what they regard as an easy game. And really there is no reason why they should not get a part of the Uncle Sam stakes.

This sentiment has been created by a long list of acquittals, commutations and light sentences, due largely to legal technicalities and, while the existence of such a sentiment would in no measure justify putting to death an innocent man, yet the effect of the execution of a man of whose guilt there can be no reasonable doubt will beyond question tend to lessen the number of homicides of which Utah has had its full share in recommentations and the matter of securing the removal of the mew government said many of the words were familiar to him. At the Utah state prison Peter Mortensen, convicted of the murder of James R.
